Annual Reports

of

THE TOWN OF

NEWMARKET

NEW HAMPSHIRE

For The Year Ending

DECEMBER 31st, 1982

NOTICE TO THE PROPERTY OWNERS

Every spring you receive an inventory to be filled out and returned to the Selectmen by April 15th.

The 1977 General Court passed RSA 74:7A making it **mandatory** that the inventory be filled out and returned by April 15th each year. In 1981, the legislative body passed a law, RSA 74:4A, stating that by vote of the Board of Selectmen, they may elect to do away with the filing of the inventories annually. The Newmarket Board of Selectmen elected to continue having the inventories filed annually and therefore in order to get the exemptions, you must file.

The penalty for failure to comply shall be one percent (1%) of the property tax bill. In no case will the penalty be less than ten dollars (\$10.00) or more than fifty dollars (\$50.00).

The penalty will be added to the current year's tax bill.

It is **mandatory** that you file your inventory each year in order to receive your veterans exemption even if the permanent application is on file.

PLEASE NOTE: These forms are very important and must be completely filled out and signed in the proper places, otherwise, you will be liable for the penalty.

Signed,
BOARD OF SELECTMEN

Jo Anne Hauschel, *Chairman*
Albert W. Caswell, Jr.
Michael Cornelius

Dedication

In grateful recognition of a lifetime of work for his community, the Board of Selectmen dedicate the 1983 Town Report to John Twardus.

Over the years, John has served as a Selectman, as Welfare Officer, and in various other local offices. In addition, for 18 years, from 1958 to 1976, John gave his time and energy to representing Newmarket as a state legislator. This lengthy service in Concord made John one of the senior members of the legislature when he retired at the end of his ninth term.

The Board of Selectmen are proud to express the appreciation of all Newmarket citizens to John Twardus, for his service and commitment to the town.

Board of Selectmen

Jo Anne Hauschel, *Chairman*
Albert Caswell, Jr.

**PROGRESS REPORT
OF THE SELECTMEN
1982**

The Selectmen respectfully submit to the citizens of the Town of Newmarket the annual report on projects and activities for the year of 1982.

The year began with the annual audit of the town's books and all accounts were found in good order.

This fall, the payroll was put on computer, adding yet another phase to the previous computerizing of tax, water, and sewer billing. As of this writing, the accounts payable are being put into the computer, which will give an up-to-date account of all funds spent and encumbered; trust funds are scheduled to go into the computer in the coming year.

The rewiring of the Town Hall was begun in the late fall and at this time is nearing completion. This has been an extensive and badly needed improvement, for most of the original wiring had never been replaced.

Also this year, an energy-saving device has been installed on the Town Hall furnace which will help to save on fuel consumption.

The Town of Newmarket, through a federal matching grant administered through the State Division of Parks and Recreation and private contributions raised and given to the town by the Newmarket Service Club, purchased two waterfront lots; purchase of a third is awaiting title clearance.

Our hard-working Community Development Director, Sue Nichols, left Newmarket to take a new position and, after extensive interviews of many qualified applicants,

market continues to improve with several new storefronts as well as the rehabilitation of several residences in adjacent areas.

As a result of the efforts of many individuals and groups including the Community Development Office, Newmarket now has its own pharmacy: the Lamprey River Pharmacy, located at 156 Main St., opened in December. A brochure has been assembled for distribution by the Community Development Office showing commercial and professional space available in town, with an eye to attracting more new enterprises to Newmarket.

In August, a special town meeting was held to seek voter approval to sell a lot in the town's industrial park off New Road, to a prospective industry. The shortest Town Meeting on record, it lasted seven minutes and ended with overwhelming approval. As of this writing, the industry has not finalized its plans with the town and the Selectmen remain open to bringing in new industry.

A newsworthy couple arrived in Newmarket his year, courtesy of Wheelabrator-Frye of Hampton and the efforts of Richard Schanda: a pair of mute swans was donated to the town by Wheelabrator and were settled at the foot of the Water Works dam. A town-wide contest to name the pair was won by Sharon Langlois with "Venus" and "Apollo" and Ted Puchlopek with "Piscassic Island." At the 1982 town meeting, Schanda was officially named as the "Keeper of the Swans."

After several delays, the hot-topping of Elm Street was finally completed this past fall. Work was also done on New Road and Ash Swamp Road, but further work remains to be completed in the spring.

In response to many citizen requests, the former Town Office hours of 9-4 were extended to 8-4:30, a change that has been well-received and which enables persons having business to transact to come in before or after working hours.

This past year, the Selectmen applied for another Small Cities Community Development Block Grant to construct

a badly-needed storm drainage system and effect some housing rehabilitation in the New Village, but the competition was fierce and, although Newmarket scored high, we did not get the grant. The Board continues to explore other possibilities for funding this and other projects that might be accomplished without appropriations.

In response to requests from merchants in the congested central downtown area, the section of Main Street from BoChaine's to Chapel Street was made a one-hour parking zone. Originally done on a trial basis, the arrangement seems to be effective in freeing up spaces for patrons of downtown businesses.

The Dispatch Committee has worked very hard in recent months, assembling information and meeting with officials of other towns with the goal of bringing in some other communities to the Newmarket Dispatch Center, for better utilization of the existing center and to generate some revenue for the town. At this time, prospects appear favorable for one or two towns to join Newmarket, but these plans have not yet been finalized.

In response to voter wishes expressed at last year's town meeting, the Selectmen have been exploring alternative methods of rubbish disposal. Much time has been spent on this project and in obtaining the necessary cost figures to present to the town. As the complete package will not be ready in time for town meeting, the options will be presented to the voters at a later date, possibly at a special town meeting in the late spring.

The Public Safety Complex Committee has been moving ahead in meeting with design/builder to work out plans for the long-hoped-for Public Safety Complex. The meetings, which have also included all emergency department heads, have been highly productive and some schematic drawings will be made on the basis of input

Since October, the Selectmen and the Budget Committee have spent many hours working on the town's budgets and attempting to keep them as reasonable as possible without sacrificing essential services.

As our community depends very heavily on volunteer services, we encourage all those interested in serving on any town board or commission to leave their names at the town office for consideration when openings occur. The town always needs and welcomes citizen participation and the volunteer also benefits from an increased understanding and appreciation of town government.

The Selectmen meet every Wednesday evening at 7:00 p.m., in the town office and the public is invited to attend. Anyone wishing to bring a matter before the board should ask to be placed on the agenda before end of day Tuesday. All are welcome to attend as interested observers. We urge and encourage all town residents to join us to keep informed on the issues and give us your input. This in turn enables your Selectmen to serve you best.

Respectfully submitted,

Jo Anne Hauschel, *Chairman*

Michael Cornelius, *Clerk*

Albert Caswell, Jr.

**ANNUAL REPORT OF THE
BOARD OF WATER COMMISSIONERS
1982**

In spite of a limited budget, 1982 has been a year of significant progress for the Water Department. Approximately 400 feet of water main has been added to the system by Walter Cheney on newly constructed Sewall Lane. The main has been extended 200 feet on Hersey Lane through the cooperation of Mr. & Mrs. Butney and F. F. & S. Enterprises. Another 355 feet has been added to the fire loop which was started on Beech Street Extension in 1981, expenses being shared by Homer Evert and the Water Department.

The old water storage tank on Great Hill has been dismantled and removed; and the area around the new tank graded, seeded, and a fence installed around the property to discourage vandalism.

As a result of public concern with water and energy conservation, water sales have declined for the past two years with a corresponding decrease in Water Department revenue. In order to meet our budget it was necessary to increase water rates in July of 1982 to \$10.00 per thousand cubic feet. Water Permit fees increased to \$300.00 and the billing system revised to make it more equitable for all patrons.

During 1982 a comprehensive "13 Year Plan" for the maintenance and upgrading of Water Department facilities was drawn up by Commissioners Merrill, Jarosz, and Wojnowski in collaboration with Superintendent Daigle and incorporated into the Water Department budget for 1983. This plan provides for specific amounts of money to be set aside in the budget for specified maintenance and improvements to the water system.

The replacements of old water meters with new remote meters with a goal of 100 meters per year has continued through 1982 as has the replacement of fire hydrants whenever time and funds permit.

The search for a deep rock well by the use of fracture trace analysis has progressed to the point where three areas showing the greatest potential have been mapped out. Two of these areas are, unfortunately, at such a distance from the existing system as to be impractical to pipe in at this time unless necessity warranted the expenditure. The third area lies within a reasonable distance of the existing system and preparations are being made to drill a test well there as soon as conditions will permit the drill rig to be set up. The Board of Water Commissioners wishes to thank Mr. & Mrs. Bizinski and Joseph Schanda for their community spirit in granting permission to enter their property for the purpose of drilling a test well.

STATISTICS:

Number of gallons pumped in 1982

Treatment Plant	47,551,600 gallons
Bennett's Well	<u>73,860,000</u> gallons
Total for 1982	121,411,600 gallons
5% decrease in volume from 1981	

Average number of hours of operation daily

Treatment Plant	1,320.8 hours @ 36,000 g.p.h.
Bennett's Well	6,155 hours @ 12,000 g.p.h.

REPORT OF THE NEWMARKET SEWER COMMISSIONERS

During 1982, the Newmarket Sewer Commissioners experienced a relatively trouble-free year.

However, because of aging and undersized sewer lines, extensive replacement is becoming more necessary with each passing year. As a result, the Board of Sewer Commissioners has been working with its engineering firm to develop a long-range reconstruction program. Several of the major areas of concern are:

1. Bay Road P.S. replacement
2. B&M Railroad Relief
3. High School Relief
4. North Main Street Relief
5. Lamprey Relief
6. Beech Street Extension

There is an excellent opportunity for Newmarket to receive Federal funding for a portion of these projects in the fiscal year beginning October 1983.

In addition to the Federal funds, the recent rate increases by the Sewer Department and the Water Department should enable us to complete these projects over a period of time.

Meeting of the Sewer Commissioners are held on the first Monday of each month at 7:30 P.M. at the Sewerage Treatment Plant.

Respectfully submitted,

Nick Zuk, Chairman

Walter Schultz

John Ward

Newmarket Board of
Sewer Commissioners

REPORT OF THE LIBRARY TRUSTEES 1982

The Newmarket Public Library Board of Trustees are proud to report a great deal of work accomplished on the Library building. Among the repairs and improvements are:

- (1) completion of storm window repair and installation
- (2) (successful) repair of the roof
- (3) interior replastering, where necessary
- (4) repainting of the stack room and main desk area
- (5) installation of 13 inches of blown-in cellulose insulation over the above two areas
- (6) installation of three circulating ceiling fans
- (7) installation of a new (rear) entrance to the Library through the Tower Room.

Item (7) above is an action that was taken due to discovery of a rather serious problem which still exists:

The Trustees also developed in 1982 a long-range plan for upgrading the Library building. This was done with the help of Hersey Associates. With partial funding made possible through the New Hampshire Historic Preservation Office, step one of this plan was to have been the repair of the front step area with the installation of a handicapped ramp and a new front door. During the first day of construction, however, it was discovered that the portico support columns themselves were not properly footed, in poor repair and in danger of falling. Construction on the original project was halted and the Library remained closed for 4½ months until plans could be drawn, approved and executed for the new rear entrance to the building.

This remains a very serious Town liability issue, and the Trustees have continued to investigate funding possibilities for repair of the front portico area — the number one priority for 1983. As the New Hampshire Historic Preservation Office's available funds have been virtually exhausted by the rear door project, it appears that town funding will be necessary.

To the Members of
the Board of Selectmen
Town of Newmarket
Newmarket, New Hampshire

We have examined the combined financial statements and the combining fund and account group financial statements of the Town of Newmarket, New Hampshire as of and for the year ended December 31, 1982, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts which should be included to conform with generally accepted accounting principles.

In addition, the Town has not capitalized the cost of property and equipment purchased by the Proprietary Funds (Water and Sewer Departments). Likewise, no depreciation expense is recorded on these funds. Generally accepted accounting principles require that property and equipment of proprietary funds be capitalized and depreciated over the useful lives of the assets. The Town's records do not permit the application of adequate procedures to enable us to determine the cost value of capital assets or related depreciation expense on them. Because of the material effect of the omission of fixed and related depreciation on the financial position, we do not express an opinion on the financial statements of these Proprietary Funds.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the combined financial statements and the combining fund and account group financial statements referred to above, other than the financial statements of the Proprietary Funds (Water and Sewer), present fairly the financial position of the Town of Newmarket, New Hampshire at December 31, 1982, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

TOWN OF NEWMARKET

In connection with our examination we also (1) made a study and evaluation of the Town's system of internal accounting, (2) performed tests of compliance with the Revenue Sharing Act and regulation as required by Sections II.C.3 and III.C.3 of the "Audit Guide and Standards for Revenue Sharing and Antirecession Fiscal Assistance Fund Recipients" (Guide) issued by the Office of Revenue Sharing, U.S. Department of the Treasury, and (3) compared the data of the Bureau of Census Form RS-8 to records of the Town of Newmarket as required by Section II.C.4 of the "Guide".

Based on these procedures we noticed no instance of non-compliance with the regulations and no material differences between Census data on Form RS-8 and the records of the Town of Newmarket for the fiscal year ended December 31, 1982.

January 31, 1983

**1983
NEWMARKET
TOWN
WARRANT**

WARRANT
STATE OF NEW HAMPSHIRE
TOWN OF NEWMARKET

To the inhabitants of the Town of Newmarket in the County of Rockingham in said state, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said town on Tuesday, the 8th day of March, 1983, at 10:00 A.M. to act on the following article:

Article 1

The polls will close and action by balloting on the article referred to above will cease at 7:00 P.M. The ballots will then be counted and the results announced.

Further, in compliance with action provided by the Town Meeting, March 10, 1981, Article 22, it was voted to restrict the second session to weekday evenings starting no earlier than 7:00 P.M. Therefore, the second session of Town Meeting will be held Thursday, March 10, 1983, at 7:00 P.M. at the Newmarket High School Gym.

Polls Open — March 8, 1983
10:00m A.M. to 7:00 P.M.

Article 1. To choose all necessary town officers for the ensuing year.

Article 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year; as may be necessary for general government including town officer's salaries and expenses, election and registration, town buildings, for the protection of persons and property, including the police department, for health and sanitation, general expenses of the departments, for education and the public library, for charities, including decoration of soldiers' graves, for recreation, for indebtedness to other governmental divisions, and to pay all other necessary charges arising within said town.

Article 3. To see if the Town will vote to authorize and empower the selectmen to borrow money for necessary expenditures in anticipation of the collection of taxes.

Article 4. To see if the Town will vote to allow a discount of two percent (2%) on all property taxes (paid in full), if paid within fifteen (15) days. Deadline for allowance of discount to be printed on tax bills.

Article 5. To see if the Town will vote to accept the budget as submitted by the Budget Committee.

Article 6. To see if the Town of Newmarket will authorize the selectmen to deed a portion of the land on Beech Street Extension (formerly the old dump site) to the Newmarket Senior Citizens Group, for use as a site for a proposed center. (Submitted by petition.)

Article 7. To see if the Town of Newmarket will appropriate the sum of five hundred dollars (\$500.00) to defray costs and other expenses to deliver deed to the Newmarket Senior Citizens Group, of parcel of land on Beech Street Extension (formerly the old dump site) for use as a site for a proposed center. (Submitted by petition.) Not recommended by the Budget Committee.

Article 8. To see if the Town of Newmarket will vote to authorize the Fire Chief to send fire apparatus out of town and receive fire apparatus from other towns on a donated basis in accordance with the provisions of New Hampshire R.S.A. Chapter 154, Sections 24 through 30, the Commonwealth of Massachusetts Statutes Chapter 48, Section 59A and The State of Maine R.S.A., Title 30, Section 3777, for the purposes of securing to each the benefits of mutual aid in protection of life and property from fire.

Article 9. To see if the Town will vote to go on record in support of immediate actions by the federal government to control and reduce acid rain which is harmful to the environment and economy of New Hampshire and to the health and welfare of the people of New Hampshire. These actions shall include:

- 1.) Reduce by at least half the major cause of acid rain, sulfur dioxide emissions, by the year 1990.
- 2.) Conclude negotiations and adopt a treaty with the government of Canada that will commit both nations to this same goal.

The record of the vote on this article shall be transmitted to the New Hampshire congressional delegation and to the President of the United States. (Submitted by petition.)

Article 10. To see if the Town will vote to raise and appropriate the sum of forty-one thousand dollars (\$41,000.00) for the purpose of repair-refooting of the portico and steps and installation of a handicapped ramp for the Newmarket Public Library. (Submitted by petition.) Not recommended by the Budget Committee.

Article 11. Shall the citizens of Newmarket, N.H. ask members of the New Hampshire congressional delegation to support a resolution in the U.S. congress to:

Request the President of the United States to propose to the Soviet Union that the United States and the Soviet Union adopt a mutual freeze on the testing, production, and development of nuclear weapons and of missiles and new aircraft designed primarily to deliver nuclear weapons, with verification safeguards satisfactory to both countries. (Submitted by petition.)

Article 12. To see if the Town will require any and all evacuation, relocation, hosting and other emergency response plans for the Seabrook Nuclear Project, civil defense or nuclear war be approved by Town Meeting as a condition of the Town's acceptance. (Submitted by petition.)

Article 13. To see if the Town will vote to amend Article 10 of the 1980 Town Meeting, to provide that five thousand dollars (\$5,000.00) of the proceeds of the sale of the old school building on Zion's Hill be set aside for the design of a public safety building, and five thousand dollars (\$5,000.00) be used to renovate the Town Hall offices. Recommended by the Budget Committee.

Article 14. To see if the Town will vote to appropriate and authorize the withdrawal from Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972, as amended, for the following specific purposes and in the amounts indicated herewith:

(A) Reappraisal

(1981 Town Meeting, Article 14) \$25,000.00

Recommended by the Budget Committee.

Article 15. To see if the Town will vote to appropriate and authorize the withdrawal from Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972, as amended, the sum of thirty-five thousand dollars (\$35,000.00) for use as set-offs against the 1983 Town Budget.

General expenses of the highway \$35,000.00

Recommended by the Budget Committee.

Article 16. To see if the Town will vote to appropriate the sum of five hundred dollars (\$500.00) to support the Retired Senior Volunteer Program to help defray some of the expenses for the fiscal year 1983-1984. Recommended by the Budget Committee.

Article 17. To see if the Town will authorize the Board of Selectmen to apply for, accept, and expend money from state, federal or governmental unit, or a private source, which becomes available during the fiscal year upon the conditions that (1) the funds be used only for the legal purposes for which a town may appropriate money, including, but not limited to, the purchase, rehabilitation, reconstruction, and/or development of land and/or buildings on such terms as the selectmen shall deem appropriate and to authorize the selectmen to execute such documents and deeds as may be necessary and convenient; (2) that the selectmen hold public hearing on the action to be taken; (3) that expenditure of other town funds shall not be required, all in accordance with New Hampshire Revised Statutes Annotated, Chapter 31, Section 95-B.

Article 18. To see if the Town will vote to elect the Building Inspector for a term of one year, with the first election to be on the Official Ballot at the next annual Town Meeting. (Submitted by Petition.)

Article 19. To see whether the Town will vote to amend the 1973 adoption of the National Fire Protection Association's Life Safety Code 101 to include all subsequent amendments to the code.

Article 20. To see if the Town will vote to raise the sum of forty-one thousand dollars (\$41,000.00) through the issuance of bonds or notes for a period of up to ten (10) years, with the proceeds to be used for the purpose of the repair and refooting of the portico and steps, and installation of a handicapped ramp for the Newmarket Public Library. Recommended by the Budget Committee.

Article 21. To see if the Town, pursuant to R.S.A. 31:41-d, will vote to adopt the following ordinance relative to the licensing of amusement machines:

**BY-LAWS TO REGULATE
AND LICENSE AMUSEMENT DEVICES**

Be it hereby ordained by the Newmarket Board of Selectmen that the following By-Laws to Regulate and License Amusement Devices be enacted:

1. *Statement of Purpose:* It is the purpose of these By-Laws pursuant to R.S.A. 31:41-d, to regulate and license amusement devices as defined herein.

2. *Definitions:*

A. *Amusement Device:* The term "amusement device" shall mean any machine which, upon the insertion of a coin, slug, token, plate or disc, may be operated by the public generally for use as a game, entertainment, or amusement, whether or not registering a score, and whether or not skill is used in its operation. It shall include but not be limited to such devices as electronic games, pinball machines, skill ball, mechanical grab machines, and all games, operations, or transactions, similar thereto under whatever name they may be indi-

cated. The term does not include vending machines in which are not incorporated gaming or amusement features, nor does the term include any coin-operated rides or devices which solely produce music.

B. Person, Firm, Corporation, or Association: The terms person, firm, corporation, or association shall include any of those entities or combinations thereof maintaining an establishment where amusement devices are available for general use by the public, or having control over such an establishment.

3. Gambling Devices Not Permitted: Nothing in these By-Laws shall in any way be construed to authorize, license or permit any gambling devices whatsoever prohibited or regulated by New Hampshire law.

4. License Required:

A. No person, firm, corporation, or association may be allowed to operate an amusement device without first obtaining a license from the Newmarket Board of Selectmen.

B. The Board of Selectmen may establish from time to time reasonable licensing requirements.

C. License Fee: The applicant shall pay fifty dollars (\$50.00) per year or any part thereof per device, provided that the applicant may at his discretion remove and replace any device at will without further payment of a fee. In other words, the license fee shall be determined by the maximum number of devices present on any day of the year, and not by the total number of different machines present during the entire year. All fees will be prorated for the remainder of 1982.

D. Duration: Licenses shall be effective from the date granted until December 31 of the year granted. Any operator of an amusement device now in operation must pay all fees and apply for a license within 30 days of the effective date of these By-Laws.

E. *Renewal*: Each license will be reviewed annually by the Board of Selectmen and renewed upon payment of fees if the person, firm, corporation or association applying for renewal has been found to comply with the provisions of the By-Laws.

F. *Revocation or Suspension*: Such license may be revoked or suspended at any time upon a determination by the Board of Selectmen that repeated incidents of non-compliance with the provisions of this ordinance have been committed by the license holder, his agent, or employee. Such revocation or suspension shall be carried out by the selectmen only after due notice and a public hearing.

G. *Additional Requirements*: The Board of Selectmen may from time to time amend these By-Laws to modify, add, or delete any provisions thereof. Nothing in this ordinance shall be construed to abrogate, limit, or contradict any state or federal law or regulation.

5. *Penalty*: Any person, firm, corporation, or association found to have violated these By-Laws shall be guilty of a violation as defined by New Hampshire Revised Statutes Annotated.

6. *Separability*: Each separate provision of these By-Laws shall be deemed independent of all other provisions herein, and it is further ordained that if any provisions of these By-Laws are found to be invalid by a court of competent jurisdiction, all other provisions thereof shall remain valid and enforceable.

7. *Effective Date and Duration*: These By-Laws shall take effect upon second reading and shall be in effect until repealed, modified, or ratified by vote of the 1983 Newmarket Town Meeting.

First Reading - 05/26/82

Second Reading - 06/02/82

Effective Date - 06/02/82

Given under our hands and seals this 18th day of February, 1983.

Jo Anne L. Hauschel, *Chairman*
Albert W. Caswell, Jr.
Michael Cornelius
Selectmen of Newmarket, N.H.

We hereby certify that we gave notice to the inhabitants within named, to meet at the time and place and for the purpose within mentioned by posting an attested copy of the warrant at the place of meeting within named, and a like copy at the Post Office, being a public place in said Town on the 18th day of February, 1983. Also a copy was posted at the place of the business meeting (Newmarket High School).

Jo Anne L. Hauschel, *Chairman*

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

A. Fund Accounting

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the Town.

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Included in this fund type are Federal Revenue Sharing, Public Library, Community Development Block Grant (1980 and 1981), and Waterfront Property funds.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of long-term notes or bonds and from federal and state grants.

PROPRIETARY FUNDS

Enterprise Funds - Enterprise Funds are used to account for operations that provide a service to citizens financed primarily by a user charge for the provision of that service and activity. The water and sewer department funds are included in this fund type.

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and Agency Funds are used to account for the assets held in trust or as an agent by the Town for others.

B. Account Groups (Fixed Assets and Long-Term Liabilities)

All governmental funds and expendable trust funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in a General Fixed Asset Group of Accounts for accountability purposes. In accordance with the practices followed by other municipal entities in the State, the Town does not maintain a record of its general fixed assets and accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group. This account group is not a fund. It is concerned only with the measurement of financial position and not results of operations. Since they do not affect net current assets, such long-term liabilities are not recognized as governmental fund type liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

C. Basis of Accounting

The accounts of the General, Special Revenue, Capital Projects, and Expendable Trust Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, sources of financial resources and assets are recognized when measurable and available to finance operations during the year. Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or in the case of judgments and claims against the Town, when there is a probability that such

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

judgments and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacation and sick pay, and 2) principal and interest on general long-term debt which is recognized when due. All Nonexpendable Trust, Enterprise, and Agency funds are accounted for using the accrual basis of accounting.

D. Budgetary Accounting

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. The Town budget represents departmental appropriations as authorized by annual or special town meetings. The Selectmen may transfer funds between operating categories as they deem necessary. State Statutes require balanced budgets but provide for the use of beginning fund balance to achieve that end. \$12,000 of beginning general fund balance was applied to reduce the 1982 property tax levy.

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures and are, therefore, reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year. The reserve for encumbrances at December 31 consists of the following:

<u>General Fund</u>	
Computerization of Town Records	\$ 2,598
Library Heating System	3,000
Public Safety Building Design	10,000
Rewiring Town Hall	1,100
Seacoast Regional Counseling Services	3,000
Reappraisal	<u>25,000</u>
<u>Total</u>	<u>\$44,698</u>

F. Investments

Investments in all instances are stated at cost, or in the case of donated investments, at market value at the time of bequest or receipt.

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

G. Inventories

Inventory in the General and Special Revenue funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased. The water department inventory of material and supplies was not verified. However, we do not believe the amount enters materially into the determination of the results of the operations for the year ended December 31, 1982.

H. Accumulated Unpaid Vacation and Sick Pay

Accumulated unpaid vacation and sick pay is not accrued in the governmental funds using the modified accrual basis of accounting. Employees may accumulate sick leave at a rate of 12 days per year, to 90 days. Vacation is granted in varying amounts based on length of service. Vacation pay accumulation does not exceed a normal year's allowance.

I. Taxes Collected For Others

The property taxes collected by the Town include taxes levied for the Newmarket School District and Rockingham County which are remitted to these governmental units as required by law. The ultimate responsibility for the collection of taxes rests with the Town. The payments are recorded in the Property Tax Agency fund as intergovernmental transfers.

J. Property Taxes

Annually, the Town establishes and raises through taxation an amount for abatements and refunds of property and resident tax revenues known as overlay. All abatements and refunds are charged to this account. The amount raised in 1982 was \$33,166 and expenditures amounted to \$43,969.

As prescribed by law, the Tax Collector sells at tax sale all uncollected property taxes in the following year after taxes are due. The purchaser at tax sale has a priority tax lien on these properties and accrues interest at 18% per annum. Delinquent taxpayers must redeem property from tax sale purchasers.

Property is sold to the party who will accept a lien for the least undivided interest in the property for payment of taxes and related costs due. If property is not redeemed within the two year redemption period, the property is tax-deeded to the lien holder.

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

K. Interfund Transactions

During the course of normal operations, the Town has numerous transactions between funds, including expenditures and transfers of resources to provide services and fund capital outlay. The accompanying governmental and fiduciary fund financial statements reflect such transactions as transfers.

L. Interfund Receivable and Payable Balances

Individual fund interfund receivable and payable balances at December 31, 1982, were as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$188,212	\$732,543
<u>Special Revenue Funds</u>		
Federal Revenue Sharing		60,000

 <u>Total</u>	 <u>\$920,755</u>	 <u>\$920,755</u>

M. Intergovernmental Receivables

The general fund financial statements reflect a receivable of \$48,116 from the State of New Hampshire, representing the balance of the Business Profits Tax distribution due December 31, 1982. In a letter

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

dated December 15, 1982 to all governmental entities, the State Treasurer advised that this balance would be processed for payment as soon as funds become available. The intergovernmental receivables at December 31, 1982 consist of the following:

<u>General Fund</u>		
State of New Hampshire		\$ 50,658
		<u> </u>
<u>Special Revenue Funds</u>		
Federal Revenue Sharing	\$ 14,111	
Community Development Funds	173,416	
State of New Hampshire	<u>16,950</u>	\$204,477
		<u> </u>
<u>Capital Projects Funds</u>

		<u> </u>

NOTE 2 - CHANGES IN LONG-TERM DEBT

The following is a summary of long-term debt transactions of the Town for the fiscal year ended December 31, 1982.

	<u>General Obligation Debt</u>
Long-term Debt	
Payable January 1, 1982	\$643,800
Long-term Debt Retired	<u>97,300</u>
Long-term Debt	
Payable December 31, 1982	<u>\$546,500</u>

Long-term debt payable at December 31, 1982, is comprised of the following individual issues:

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

General Obligation Debt

\$497,000 1965 Sewer Bonds due in annual installments of \$30,000 through February 1, 1985; interest at 3.10%	\$ 90,000
\$852,000 1969 Sewer Bonds due in annual installments of \$45,000 through February 1, 1983 and \$50,000 through February 1, 1989; interest at 4.75%	345,000
\$148,000 1977 Water Tank Note due in annual installments of \$14,800 through September 15, 1987; interest at 4.10% (this issue is being serviced - principal and interest - by the Water Department Fund)	74,000
\$75,000 1977 Industrial Park Note due in annual installments of \$7,500 through September 15, 1987; interest at 4.10%	<u>37,500</u>
<u>Total</u>	<u>\$546,500</u>

The annual requirements to amortize all debt outstanding as of December 31, 1982, including interest payments, are as follows:

Annual Requirements To Amortize Long-Term Debt

<u>Year Ending</u> <u>December 31</u>	<u>General Obligation Debt</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
1983	\$ 97,300	\$22,215	\$119,515
1984	102,300	18,114	120,414
1985	102,300	13,894	116,194
1986	72,300	10,141	82,441
1987-89	<u>172,300</u>	<u>11,601</u>	<u>183,901</u>
<u>Total</u>	<u>\$546,500</u>	<u>\$75,965</u>	<u>\$622,465</u>

All debt is general obligation debt of the Town, which is backed by its full faith and credit.

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 3 - CAPITAL PROJECTS FUNDS

A. Projects Deficits

The deficits in the Capital Projects Funds at December 31, 1982, are as follows:

Secondary Sewer Construction Project	\$15,384
Recreation Park Complex	<u>497</u>
<u>Total</u>	<u>\$15,881</u>

Generally, these deficits arise because of the application of generally accepted accounting principles to the financial reporting for such funds. Bonds or notes authorized to finance construction of the projects are not recognized in the financial statements until issued.

Bonds or notes authorized - unissued at December 31, 1982, are as follows:

<u>Town Meeting</u>	<u>Article No.</u>	<u>Amount Authorized</u>	<u>Purpose</u>
1977	7	\$650,000	Secondary Sewer Construction Project

The Town has not provided for the deficit in the Secondary Sewer Construction project.

In the Recreation Park Complex Fund, the deficit of \$497 arises because of an advance of \$1,000 from the General Fund. The general fund may have to absorb the \$497 deficit.

B. Federal/State Grants

<u>Town Meeting</u>	<u>Article No.</u>	<u>Amount Authorized</u>	<u>Purpose</u>
1981	11	\$7,000	Newmarket Public Library Preservation Project

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 4 - PENSION PLAN

The Town participates in the State of New Hampshire Retirement System. The Town's contribution for normal cost of the plan is based upon an actuarial valuation of the entire State plan. Since the actuarial valuation is performed on the entire State plan the amount, if any, of the excess of vested benefits over pension fund assets is not available. The Town does not have an accrued liability for past service costs. Pension costs amounted to \$17,974 in 1982.

NOTE 5 - FINANCIAL STATEMENTS NOT INCLUDED

Financial statements of the Municipal Court are not included in the annual financial report of the Town because the funds are not administered by elected officials of the Town. The Town appropriates the annual salaries of the Justice and Clerk and receives, on a monthly basis, the balance of court revenues after expenses. A separate report is filed with the Administrative Committee of District and Municipal Courts in accordance with the Revised Statutes Annotated 502-A:9-a.

NOTE 6 - CAPITAL RESERVE FUNDS

The capital reserve fund balances held by the Trustees of Trust Funds at December 31, 1982, are as follows:

<u>Purpose</u>	<u>Amount</u>
School District	\$ 89,883
Fire Department	27,261
Public Works	28,552
Water Works	22,703
Ambulance	22,275
Sewer	33,139
Safety Building	55,483
Police Department	<u>3,406</u>
<u>Total</u>	<u>\$282,702</u>

NOTE 7 - TRUST FUNDS

The principal amount of all nonexpendable trust funds is restricted either by law or by terms of individual bequests in that only income earned may be expended. The Town's nonexpendable and expendable trust funds at December 31, 1982, are detailed as follows:

TOWN OF NEWMARKET

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

<u>Purpose</u>	<u>Nonexpendable</u>	<u>Expendable</u>
Cemetery Funds	\$164,986	\$68,660

There was an appreciable amount of volunteer help from townspeople in 1982. A good deal of it counted as matching funds in the rear door project. Among those who helped are: the Newmarket Friends of the Library, Sal Salisbury, Phil Hendrickx, Brownie Troop #97, Dick and Sally Wilson, and Cy Thorne. These people worked hard and gave many hours, and the Trustees thank them.

Another Newmarket resident, Mary Persson deserves thanks: through a family charitable foundation, she secured a \$2,000 gift for the Library. She will be conferring with the Trustees regarding use of this money.

Carol Lincoln resigned as Librarian in August; she was replaced by Sharon Kidney, who began work concurrently with the reopening of the Library in September. She has performed admirably in reorganizing and reestablishing Library services after the 4½ month closure. Pat Haendler is the Assistant Librarian who staffs the library for ten hours each week; she has proven herself a capable and most dependable resource in our Library.

The Trustees regret the resignation of Trustee Fran Nesbitt, and welcome Forbes Getchell onto the Board.

A note of thanks goes to Craig Wheeler and the Community Development Office for their coordination work in getting the rear door project completed.

Finally, a special thanks is extended to the Newmarket Friends of the Library. Largely through their efforts, the Library now has a Children's Room. The Tower Room, while still available for meetings when the Library is not open, is now housing the Children's collection and some children's furnishings. This was no small task, and was part of a massive reorganization of the Library. They also hosted an Open House in November 1982 to celebrate the Library's reopening, the new rear door and the new Children's Room.

We look forward to final resolution of the portico problem in 1983, hopefully without sacrificing a great deal of library service.

Respectfully submitted,
Kristin Carmichael
Newmarket Public Library
Board of Trustees

REPORT OF THE NEWMARKET POLICE DEPARTMENT

What is it like to be a Police Officer?

I wonder how many of you have really given it much thought? Maybe if many of you would really think about it, it would erase some misunderstandings that sometimes occur.

First and foremost, he is just another citizen in Town, not unique in any way. He owes bills, his car just broke down, his kid is sick, and he loves coffee, pizza and beer, not necessarily in that order.

He does have a unique job. From the day he is sworn in, his whole life and life style changes. It stays with you twenty-four hours a day, three hundred and sixty-five days a year. Even on days off, on vacations, at anytime. If he comes upon a highway accident, no matter where, as soon as it is known he is a Police Officer, it is up to him to take action, make all the right decisions. The same can be said for fights, robberies, family arguments, a child falling through the ice. He'd better make the right decision, because generally, the people he serves are terribly unforgiving for mistakes, but worst of all, he won't forgive himself. It is very hard for an Officer to make an instant decision in a stressful situation, and then to learn after weeks and months of careful deliberation in the courts that it was a wrong decision.

Have you ever thought what it's like to be sitting in a restaurant having a cup of coffee and hear a parent tell a misbehaving child that if they don't behave, they'll have the Policeman throw them in jail or spank them? Can you imagine how it feels to walk into a room of party guests or club and all of a sudden things seem to quiet down and you have people looking at you like you had two heads? Or, how about trying to enjoy yourself at a gathering and have to listen to how the neighbor's kid raced through the neighborhood on his motorcycle three weeks ago, or a

poor motorist who had to go to court for speeding 50 miles per hour in a 30 zone and he couldn't have been doing more than 32 or maybe 35 tops, always ended with the comment "the cop must have had it in for me," or "he had to make his quota." Then there's always the drunk who want to knock your head off, just because you're a cop, even if you don't even know him.

Why be a Policeman? Can you imagine the thrill of receiving a graduation invitation of a beautiful young girl that you remember as a baby in diapers choking to death in her crib, that if it weren't for you would be nothing but a tragic memory? Or, the young successful man whom you haven't seen in years, that you remember as a little trouble maker, shows up at the station and says "boy am I glad you kicked me in the butt when I needed it!" All of a sudden, all of the worry, all the interrupted dinners, missed night's sleep, late night telephone calls, have all become meaningless.

Be a cop? You betcha!

Respectfully submitted,
 Paul T. Gahan
 Chief of Police

REPORT OF THE NEWMARKET FIRE DEPARTMENT

THE BOARD OF ENGINEERS OF THE NEWMARKET FIRE DEPARTMENT WOULD LIKE TO MAKE THE FOLLOWING REPORT TO THE PEOPLE OF NEWMARKET.

Accomplishments and Goals:

1) Fire alarm box 335 was installed at 10 Chapel Street.

An extensive amount of rewiring of the existing fire alarm system, along with other routine maintenance to the fire alarm system is planned for 1983.

2) New, updated, fire alarm cards are now available at the Dispatch Center in the Fire Station, and are free to the public. Please stop by to pick up your new card. We would like to express our gratitude to Rockingham Gas for their generosity in sponsoring the publication of these cards.

As you will note on the fire alarm cards, any fire alarm box in the 300 range is in an apartment complex, while any fire alarm box in the 100 range is either in a school or a manufacturing complex.

3) The department received 3,500 feet of new 4" hose, many fittings, appliances and miscellaneous small equipment for 4" hose. A folding tank capable of holding 1,500 gallons of water, to be used in conjunction with the 4" hose was also purchased. The receipt of this hose and accessories allowed us to retire some 2,200 feet of 1940 vitage 2½" hose, and has significantly modernized the department. We are now capable of moving large quantities of water, much like an above ground water main system, to most any area in town.

We would like to take this opportunity to thank the members of the Durham-UNH Fire Department, and in particular, Deputy Fire Chief Robert Wood, for the many hours of training and assistance they provided to the Newmarket Fire Department, helping adapting to and learning how to use the 4" hose to its maximum efficiency.

4) In addition to the 4" hose, the department received the following new equipment:

2 - Scott Pressure Pak II units

3 - Radio pagers

2 - Portable radios

Replacement bunker gear - several new coats, helmets, and pairs of boots

Various pieces of small hand tools and equipment

5) All Class "A" pumpers in the department were tested this summer. They all passed, and therefore have been re-certified as Class "A" pumpers.

6) In-house departmental training continued to play a large part in the activities of the firefighters. Training included such topics as elevator rescue, rural water supply, pumps and pumping operations, 4" hose handling and evolutions, water and ice rescue procedures, salvage and ladder training. Department members also attended various regional schools held throughout the state, covering a wide range of fire department related topics such as self-contained breathing apparatus, ventilation, and mutual aid fire ground tactics.

7) Once again, the company officers performed courtesy inspections of woodstoves and their installations for the citizens of Newmarket. Unfortunately, chimney fires are still occurring, mostly due to improper maintenance and/or installation. Stovepipes and chimneys have to be regularly checked for creosote build-up and cleaned as needed. One good way to check the chimney for creosote build-up is to use a small hand mirror in the cleanout at the base of the chimney. The need for chimney cleaning can vary from once per month to once per year and solely depends on your installation and wood burning techniques. Should you wish to have your woodstove inspected, please call the Dispatch Center to set up an appointment.

The entire Newmarket Fire Department wishes to emphasize to residents the importance of installing at least one smoke detector per floor in your home, to alert

you and your family in the event of fire. Most residential fire deaths occur during night time hours and are attributed to smoke and toxic gases, not flames, released during the fire. **ARE YOUR DETECTORS INSTALLED AND FUNCTIONING?**

Those citizens wishing to do any outside burning are reminded that fire permits are required and shall be obtained **BEFORE** having any outdoor fire, and only before 9:00 AM and after 5:00 PM. This does not pertain to charcoal cooking fires in proper receptacles. Charcoal cooking fires are **NOT** allowed on fire escapes, or any second means of egress (decks). Additional information and fire permits may be obtained by calling Dispatch at 659-3950.

Finally, the Board of Engineers would like to thank the more than 50 men of Newmarket who comprise the membership of the fire department and make it the successful organization it is today. These men give a great deal of themselves to make Newmarket the fire safe place it is for their neighbors. Yet, the time is rapidly approaching when the technology, legal expertise, and time commitment required will put an even greater demand on the volunteer firefighter. In the very foreseeable future, Newmarket will have to have a permanent, full-time fire chief to handle the inspections, code enforcement, plans review, fire incidents and investigations, and administrative duties and responsibilities required of a modern day fire department. As the town grows, so do the duties and responsibilities of all department heads, and their respective departments.

Respectfully submitted,
Board of Engineers,
Newmarket Fire Department
Wilfred L. Beaulieu, *Chief*
Richard J. Bulter, *Asst. Chief*
Robert J. Pratt, *Deputy Chief*

TOTAL CALLS FOR 1982	116

REPORT OF THE PUBLIC WORKS DIRECTOR

The year 1982 was unusual in many respects. The weather proved to be uncooperative. Most of the snow came in one big storm. The rest was more of a nuisance than anything else. We had a wetter than normal spring with rain or drizzle on 25 of June's 30 days. In effect we lost a key summer month. Even the supposed dry months of July, August and September had more than normal precipitation.

The only major project that we effectively completed was the Elm St. rehabilitation. Even this work was plagued with more problems and missed deadlines than should be expected. However, we now have it paved with a drainage system that is accessible for cleaning. Several water services were replaced. It is my expectation that we should not have to dig this street up for several years to come.

The road oiling program suffered a setback for two reasons. The first is that I underestimated the quantity needed to effect a good overlay by one half. With 2,000 tons rather than the 1,000 we made, I would not have the problems that are there now. The second was scheduling backlogs in the oil distribution industry forced me to do some of the work later than I would have liked. My apologies to all those affected and we will do a better job next year.

I, as department head, learned quite a bit this year. Due to the nature of the department and the type of work we have to be available for, we should not try to do construction. New construction is best left to the people who can do it. We should do what we do best, that is, maintain services, not add to them. Next year's work schedule reflects this idea. My department lacks two things in order to do construction work. One is that we do not have the equipment. The second is that we cannot keep continuity going. It seems that any project involving continu-

ous attention gets sidetracked by some kind of breakdown or item that has to be done. The Department of Public Works should not have attempted doing new construction as we did on Elm St.

The Town has added approximately 1/3 of a mile of new road in two projects. Part of Riverbend Road was finally completed and Sewall Lane was constructed. These are now part of the better than 25 miles of Town maintained roads.

I would like to take this opportunity to make a request of all of the citizens. It seems that over the past couple of years it is in vogue to steal or vandalize traffic signs. Over \$500 was spent last year in materials alone to replace these signs. Should you see a traffic sign in a house or see someone taking one, please let the Police Department know. Stealing a stop sign is not just a nuisance. It could get people killed.

Thank you.

Respectfully submitted,

Robert Daigle
Public Works Director

REPORT OF NEWMARKET CIVIL DEFENSE CRISIS RELOCATION PLAN HOST AREA UPDATE

Much has been written and said recently about the impracticability of relocating people to New Hampshire Host Areas. Most of the statements being made are based on a lack of information and knowledge of the program. This paper will attempt to bring out the details of Crisis Relocation to date.

Based on surveys done by the Corps of Engineers over the past few years, there is enough space in the public and semi-public buildings in Host Areas to handle the allocations tentatively assigned to each community. However, until the hosting plan for each community is started, these allocations will remain tentative. That includes the assignments already established by relocation plans in Massachusetts and Rhode Island. So that reading or hearing that a certain community in Massachusetts is going to a certain community in New Hampshire only means that, for planning purposes only, these assignments were made. Also, the New Hampshire Civil Defense Agency has designated Host Areas by the major community in the area. Thus, when statements are made that a certain number of people will be hosted in Littleton, it means that the hosting area for Littleton includes Lancaster, Groveton, Colebrook and several other communities.

The work schedule set up by the Civil Defense Agency calls for the completion of the evacuation plans for the New Hampshire Risk Areas (Portsmouth, Salem and Manchester-Nashua) and the reception plans for the corresponding Host Areas (Claremont, Littleton, Berlin, Conway and Rochester). When these plans are at least in Draft Form, then we will begin to assist the rest of the communities prepare reception plans for the out-of-state relocatees.

Relocatees will not be housed in private homes except when homeowners voluntarily agree to provide space in

their homes. Relocatees will be expected to perform in work details, augment emergency services and assist the host community in coping with the situation. Such things as up-grading the fallout protection of buildings, expanding water and sanitation facilities, assisting in police protection and fire suppression, etc. could be performed with the assistance of the relocatees. Remember that among them will be doctors, policemen, firemen, carpenters, etc. Their skills will be utilized. They are not coming as tourists.

Providing food for all these people is a big question mark. Relocatees will be instructed to bring whatever non-perishable foodstuffs that they can to augment the host community supplies. Food distribution will be diverted to Host Areas as much as possible. However, since this situation calls for basic survival, people would be expected to get along on a lot less food. Minimum rations would certainly seem a lot better than the alternative of remaining in a potential target area.

The crisis relocation planners, Dave Hayden and Dave Cass, will be contacting Civil Defense Directors in the Host Areas in the near future to set up briefing sessions on the whole program. In the meantime, local directors should examine their community's Basic Emergency Plan to see if it needs up-dating and revision. The Reception Plan will become an Annex to each community's Basic Plan.

If you have questions concerning the Crisis Relocation Program, please contact either Dave at the Civil Defense Agency, 1-800-852-3792.

Respectfully submitted,

Geroge Hauschel,
Civil Defense Director

Tom Johnson
Deputy Civil Defense Director

REPORT OF THE NEWMARKET HOUSING AUTHORITY

The Housing Authority provides clean, safe and sanitary housing for elderly and low to moderate income families. The Project at Great Hill Terrace has twelve elderly units and thirty-eight family units. Rents for tenants living at Great Hill Terrace prior to August, 1982 are presently based on 27% of the tenant's gross income. This figure will increase 1% each year until they are paying 30% of their income for rent. All tenants are provided with heat and hot water. Tenants are responsible for paying their own electric bills and each tenant receives an electric credit per month which is deducted from the amount he pays for his rent. The amount of the electric credit is based on the number of bedrooms in the unit. We also have 30 units of Section 8 Subsidized Housing for the elderly. These units are leased from various landlords and are scattered throughout the town. Each unit must pass certain standards.

We are proud of our Project and work hard to keep it a neat and attractive place in which to live. The grounds are maintained by our maintenance personnel and many of our tenants plant flowers to make their area more attractive. We maintain an exterior painting plan in order to keep the buildings in good condition.

Anyone interested in applying for housing is urged to contact Mrs. Ruth Sanborn at the Office at Great Hill Terrace, Monday through Friday from 9:00 a.m. to 4:30 p.m.

REPORT OF THE NEWMARKET AMBULANCE CORPS

This year seemed to come and go in a wink of an eye. Perhaps because it has been busy for so many of the members. We are proud to say that all of our present members have become EMTs and others have been passed on Advanced Skills. We also have a few people who have become *trained* "First Responders" without whom we could not operate.

Our coverage during the day has improved due to a few job changes and one or two more people who can give time to their town.

We want to thank our local Police Department, Fire Department and Public Highway Department for all of their help this year. We must not forget Dispatch. Without them, many important messages wouldn't get through.

This year we had 224 responses: House Calls, Accidents (Auto and Industrial), Mutual Aid, Fire & School. Also standby for fires, school games and helping the elderly at Christmas time.

Courses either sponsored by the corps or courses members have taken are listed below as well as what our members attend to keep up their skill level.

Courses	What Members Attend
CPR	Seminars - State & Local
Advanced First Aid	Hospital Trauma Conferences
First Responder	Hospital Courses
EMT	District Meetings
EOA	Chapter Meetings
MAST	Edna meeting & conferences
Advanced Driver Safety	NHAEMT seminars & meetings

We are fortunate to have several CPR instructors, a few Advanced First Aid instructors and one EMT Instructor in our Corps. It sure makes training easier.

Thank you for your help and support during the year.
And remember:

- 1) Number your homes
- 2) Put your names on your mailboxes
 - a) Give exact location of patient or accident
 - b) Problem with the patient - conscious, unconscious, bleeding, etc.
 - c) Name of patient, if known
 - d) Your name and phone number - dispatch may need to call you back
 - e) Is there a Vial of Life
 - f) Have a light on or some one at the door to meet us

When in need of an ambulance, call:

659-2022

Respectfully submitted,

Gail Wasiewski, *President*

REPORT OF THE DISPATCH CENTER

Dispatch is a vital emergency service. Unfortunately, in the past, it has appeared as though some people have viewed the Dispatch Center as a luxury rather than the emergency service that it is.

However, it is easy to understand how it is often easy to overlook dispatch as an emergency service. After all, when was the last time you saw a dispatcher run into a burning building with his microphone in hand, or who has ever seen a dispatcher pull victims from a wrecked automobile or perform CPR on a person who has suddenly stopped breathing? It is true that you have never seen a dispatcher do any of these things nor are you ever likely to.

So what emergency function does a dispatch center perform? If you talk to any department head, you will find that dispatch is the nerve center of any emergency. Each department within the town structure more or less have their individual emergencies, which speak for themselves. On the other hand, dispatch is directly involved in each and every emergency that is experienced by the town or its citizens. For example, when a dispatcher receives an emergency call, not only is it absolutely necessary that the dispatcher get the vital information such as name and address, etc., but they often times must direct the responding emergency unit directly to the door step. They do this by informing the unit that the residence is, for example, the third house on the right from a certain intersection or landmark and exactly what color the residence is or any other unique feature that a particular residence may have. During a bad fire or accident, a dispatcher will direct assisting units to a particular location and often times inform them of what their function will be at that location.

Each emergency experienced by a dispatcher is taken as seriously and worked at with as much energy and professionalism as is put forth by any other department. In addition to these responsibilities, heaven forbid should

a dispatcher, in his initial moments of excitement or stress, ever dispatch an emergency unit to Bay Road when it should have been New Road or to the Jones residence when it should have been the James residence, because they become so vital when minutes can literally determine whether someone lives or dies.

In addition to being the nerve center of an emergency, a dispatcher may advise citizens of the dump hours, whether or not their garbage will be picked up on a certain holiday or listen to an irate citizen who is upset because his vehicle was towed. They may console a little boy whose dog has just been hit by a car or become a friend to a person who is threatening to take an overdose of pills. They also issued burning permits, tot finder stickers, emergency phone stickers, register bicycles, monitor alarms and do administrative duties for various town departments. Dispatch is the vital link between the person experiencing the emergency and the units responding to that emergency. A dispatcher must possess a special personality, because not everyone can cope with the strain of an emergency or the boredom of a slow shift.

Our Dispatch Center has served our town admirably and I am proud of the center and the people who serve as our dispatchers.

Respectfully submitted,

Timothy Russell
Dispatch Supervisor

REPORT OF INDUSTRIAL COMMISSION

This year the Industrial Commission has a more favorable report. With interest rates dropping, we can look for more activity. By the time of Town Meeting, the developer will have presented plans to the Planning Board for the construction of two new buildings and their adjacent roads. Work is to start this spring.

Respectfully submitted,

Ralph Waugh
President

REPORT OF THE RECREATION & PARKS DEPARTMENT FOR 1982

The Recreation and Parks Department has enjoyed a productive and expansive year of programs, trips and classes despite the difficult economic climate of 1982. The variety of programs has continued to increase and attendance in all activities has hit all time highs.

New additions to our Department in 1982 included a youth swimming program at the Greenland Y.M.C.A. pool, tour trips to other parts of the United States, monthly day trips to shows and places of interest and a town-wide Crafts Fair in the fall. New classes for youth included 4-H programs, cross-country ski lessons, pre-school and more. Instructional classes such as Micro-computers, Money Management workshops, and Passive Solar Building Design were added to the ambitious schedule of adult programs.

We distribute comprehensive brochures three times a year to assist residents in planning their leisure time effectively at affordable prices. Country dances, Co-ed Volleyball, Evening Horseshoe League and Cross Country Ski Rentals are just a few of the successful programs that give individuals an opportunity to learn a new sport, meet new people and experience the health and emotional benefits that recreation provides. Residents are encouraged to call 659-5563 or stop by the second floor of the Town Hall to find out what is available for them.

The Recreation and Parks Department employs a full time Director (32 hour work week), part-time work-study college students and a part-time Park Foreman. We maintain Leo Landroche Memorial Field, Nichols Avenue Field and the Little League Park. Residents are encouraged to help keep our parks looking their best by disposing of litter properly and helping to prevent vandalism.

Many individuals and groups have enabled our Department to grow and prosper. The dedicated volunteers, the

Recreation and Parks Board of Commissioners, the Selectmen, Park Foreman, local businesses and the hundreds of participants have all had a tremendous influence on our Department. Without the assistance of the Newmarket school system, St. Mary's Church, Town Hall, Meal Site and Public Library, none of what our Department has tried to accomplish would be possible. A sincere thanks to those individuals whose cooperation and tremendous support have made Newmarket Recreation and Parks Department what it is today.

Respectfully submitted,

Leslie A. Smith, *Director*
Newmarket Recreation and Parks

THE NEWMARKET SWANS, APOLLO & VENUS Annual Report by the Keeper of the Swans

The story of the Newmarket Swans starts back in the early 1970s when it was suggested to the town that we try to obtain a pair of wild mute swans. It was also thought that the ideal location would be the cove just off of the Riverside Cemetery, where the public could watch their progress, as well as being an ideal nesting area. To purchase a pair of swans would be out of the question due to the high initial price, so the search went on for a donated pair. Several years had passed when, through the course of a conversation, the idea passed on to an employee of the Wheelabrator-Frye Corporation located in Hampton, N.H. The corporation enjoys the sight of several swans being on their grounds and, as swans are wont to do, raising their young creating a surplus of sorts. The proper people were approached and a positive answer received. Newmarket would get its swans as soon as that so-called surplus developed.

The town received the pair of unnamed swans in March of 1982. The river, being ice-covered with open water at the Piscassic Dam at the Water Works, proved to be a perfect release location.

The swans spent a fine spring and summer in their new home, made many friends and explored the river from dam to dam. Food for the winter feeding of the swans was donated by local people and clubs which I, as keeper of the swans, do really appreciate. To date there has been no expense to the town nor do I foresee any.

These birds were named in a contest sponsored by a local weekly newspaper and the winning names were judged to be Venus and Apollo. The island in the river was named Piscassic Island. The Historical Society provided the prizes which were gold-plated Newmarket coins.

These birds do not mature until their third year, so 1983 will not see a family of cygnets. The male is thought to be three years old in June while the female will be two.

As all food is donated by interested local folks and clubs, any and all donations can be directed to the Town of Newmarket where the monies will then be deposited in the swans' account at Indian Head Bank.

Many thanks also go to those people who take the time to feed these beautiful creatures and an especial thanks to Paul and Ann Rousseau of Kingman's Restaurant who, throughout the winter, put up a daily package of greens and breads to be fed to the swans.

Respectfully submitted,
Richard Schanda, *The Keeper of the Swans*

REPORT OF THE LAMPREY REGIONAL SOLID WASTE COOPERATIVE

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to report that the incinerator/energy recovery plant on the University of New Hampshire campus is operating on a continuing 24-hour, seven day a week schedule. Since our last report in 1982, the Directors have continued to plan ahead for improvements in operation and economy, and are able to report a number of completed and on-going programs to that end.

The day-to-day operation is carried out under the supervision of the Cooperative's Administrator, under the general supervisory control of the three-member Operations Committee from the Joint Board of Directors. The plant personnel, in addition to the Administrator, includes two mechanics, a truck driver, two daily shifts of 12 hours each involving 8 persons, plus a daily cleanup crew. This organization operates the incinerator system, maintains records, and coordinates with the University's Power Plant staff to monitor the boiler and steam production elements of the plant. The Cooperative's organization also handles the collection of refuse from the transfer stations of five communities, and handles the ash removal and its transfer to the landfill site.

During the past year, under the supervision of the State Bureau of Solid Waste, and the Environmental Protection Agency, stack tests for air pollution control were conducted for all three furnaces and were quite successful in achieving emissions control well below required standards. Also, during the spring and summer, the study of potential alternate uses of energy was completed with funds obtained under a CEIP grant administered by the Office of State Planning in New Hampshire. The study recommendations suggested strongly that the installation of a modular turbine and electric generator would result in the utilization of excess steam during the summer months, with a substantial payback from electric generation. Negotiations are presently underway to in-

stall a 25,000 lb./hour turbine to generate electricity year round and yet utilize the by-passed steam for normal heating purposes.

Arrangements are also being consummated with the N.H. Water Supply and Pollution Control Commission to incinerate oil spill debris where contamination occurs in the Seacoast area. A new concrete floor at the plant to insure protection against oil spillage will be funded under this program, and will be constructed in early spring.

The Town of South Berwick, Maine has voted to join the Cooperative as a member, and legal arrangements are under way in both states to permit the Maine town to join with us. A number of other communities have expressed an interest in bringing their household waste to Durham, while we still have capacity for additional refuse. We also have been working cooperatively with the City of Portsmouth's plant at Pease Air Force Base to the benefit of both plants.

The Directors of the Cooperative wish to express their deep appreciation for the assistance given their efforts by the University's staff as well as the officers and personnel of the cooperating towns. Every effort will be continued to keep the residents of the region informed of the progress in the collection, processing and disposal of the waste which is being handled at the plant.

**REPORT OF THE
COMMUNITY DEVELOPMENT OFFICE
FOR 1982**

The third year of operation for the Community Development Office has resulted in productive and visible results in the Town. The second Community Development Block Grant (CDBG) of \$600,000, awarded to Newmarket by the U.S. Department of Housing and Urban Development, made possible the following activities: housing rehabilitation, commercial storefront restorations, street and sidewalk improvements, acquisition of two downtown buildings for rehabilitation, a Main Street parking study, a commercial marketing study, and a study concerning carpooling potentials. Additional grants from the State of New Hampshire enabled the Town to purchase two parcels of waterfront property, as well as to improve the Newmarket Public Library.

The Housing Rehabilitation Program for 1982 was carried out within a "target area" bounded by Exeter Street, Gerry Avenue, and Main Street. Approximately 40 housing units, including both single-family dwellings and multi-unit structures, have undergone or are undergoing improvements in energy efficiency, elimination of building and health code violations, and general improvements in appearance. The program has operated through a combination of loans and grants made available to or on behalf of income-eligible households to improve their housing conditions.

The Commercial Facade Program has generated among the more visible results of the entire program. This program enabled 15 Main Street merchants and property owners to upgrade and restore their storefronts in keeping with the original character, or style, of each building. Through a grant from the State Historic Preservation Office, merchants and property owners were able to receive architectural and design assistance from an architect specializing in historic architecture, Paul Goselin, of Salmon Falls Associates. The CDBG program

then provided grants on a 50-50 matching basis to merchants and property owners to carry out the rehabilitation work. The results of this program can be readily viewed as one passes through the downtown section of Main Street, where over half the stores and buildings now display freshly-painted and renovated facades.

Street and sidewalk improvements completed in 1982 through the CDBG program included construction of sidewalks, curbing, and storm drain improvements along Exeter Street. Through this program, the Main Street park across from Griffin's Hardware was improved to include new lighting, benches, landscaping and planting, and a small walkway. New benches, curbing, and sidewalk improvements were carried out along the southeastern section of downtown Main Street.

The 1981 CDBG made possible the purchase of two buildings for rehabilitation in the downtown area of Newmarket. The buildings were purchased in May 1982. Rehabilitation is scheduled to begin in January 1983. Upon completion of rehabilitation, one building will contain two commercial units and two residential units; the other will contain three residential units.

In early 1982, a parking study of the downtown Main Street area was completed by a private planning firm, funded by the CDBG program. The CDBG office also carried out, with the assistance of a student, a survey of Newmarket workers—primarily employees of the Timberland Company—to determine what were their parking and transportation needs and preferences, and potentials for carpooling. The results of the study are to be released in the beginning of 1983.

During 1982, the Community Development Office applied for and received funding from other sources for community development activities. With a 50-50 matching grant of Federal Land and Water Conservation funds administered through the New Hampshire Office of Recreation Services, the Town purchased two parcels of waterfront property between the foot of Creighton Street and the Town Landing at the foot of Water Street. The

Newmarket Service Club raised the local match for this grant through private donations. A community clean-up and planting of the waterfront area is being planned for the spring of 1983.

The Community Development Office assisted the Newmarket Public Library in successfully applying for funds from the State Historic Preservation Office to carry out renovations on the Library Building. The original plans for rehabilitation of the front portico entrance had to be altered in March 1982 when it was discovered during the initial construction phase that the existing foundation for the entrance was deteriorated to such an extent as to render it unsafe for use. Since the grant amount was insufficient to cover the additional work necessary to repair the entrance foundation, it was decided to use the existing funds to construct a new entrance at the rear of the building as called for in the Library's Master Plan. Additional funding to repair the front entrance and its foundation are now being sought.

The Community Development Office commissioned, in 1982, the preparation of a commercial brochure containing downtown properties available for sale or lease in Newmarket. The brochure was distributed to realtors throughout the state, as well as real estate publications and local newspapers. Distribution of the brochure has resulted so far in over 25 inquiries about potential sites to purchase or lease within the Town.

In the fall of 1982, the Community Development Office applied for a third Community Development Block Grant (\$295,000) from the Department of Housing and Urban Development. The application requested a grant to rehabilitate substandard housing in the New Village neighborhood of Newmarket, as well as funds to upgrade the deteriorating storm drainage system in the neighborhood. Since the grant was not approved by HUD, the Community Development Office is exploring other means of carrying on community development activities after June/July 1983, when the existing funding will be completed.

In 1982 the Community Development Office underwent a change in staffing. Susan Nichols, Community Development Coordinator, left the office to accept a new position in Dover, N.H. In September, 1982, Sarah James assumed the position of Coordinator.

The Community Development Office would like to thank the Town Departments, the Town employees, the Board of Selectmen, and the merchants and business people of Newmarket for their support and cooperation during the many varied activities undertaken in 1982.

The Community Development Office is located on the third floor of the Town Hall and is open Monday through Friday, from 7:30 a.m. to 5:30 p.m. Anyone with questions about any of the C.D. programs is invited to drop in or call 659-5962.

Respectfully submitted,

Sarah James
*Community Development
Coordinator*

REPORT OF THE PLANNING BOARD 1982

This year, following a vote at the 1981 Town Meeting, the Planning Board became an elected board, rather than appointed as in the past. The 1982 elections resulted in some new faces on the board, and all have been working together with some very positive results. Two new alternates were also appointed by the board.

In May, the board finalized and adopted a set of procedural rules for the Planning Board, in essence a set of by-laws for meetings and hearings.

During the year, members worked on the new subdivision regulations and, after much discussion, work and revision, the new regulations were officially adopted in September. They are now available at the town offices. These new regulations are designed to prevent some of the problems that have occurred in the past.

This year the Planning Board received thirteen applications for subdivisions. Of these, eleven were approved and two denied. Nine requests for site review were received, resulting in eight approvals and one denial; four of these resulted in new in-home businesses.

The board has been working steadily all year on the new zoning ordinances and, thus far, a great deal of excess wording has been removed to make for a more compact, clear and efficient ordinance and one that should be palatable to a majority of residents. Due to the extensive nature of this project, it will not be ready for presentation at the 1983 Town Meeting. The board hopes to hold a special town meeting in late spring at which the voters may vote on the new ordinance. Meanwhile, the board will be meeting for regular work sessions on the project until it is ready for presentation.

The Planning Board meets every second and fourth Monday at 7:30 p.m., in the courtroom. The second Mondays are work sessions and hearings are held on the

fourth Mondays. Anyone wishing to present a plan for subdivision or site review must submit an application no later than fifteen days before date of hearing. Anyone wishing to speak with the board on a purely informational basis with no hearing involved may apply to be put on the agenda up until the Friday preceding the next meeting. Agendae for each meeting are posted at the Town Hall and Post Office and all meetings are open to the public. From now until further notice, the board will also meet on all the remaining Mondays (holidays excluded) at 7:00 p.m. in the courtroom to work on the zoning ordinance. Anyone having interest in, questions about, or suggestions for the ordinance is cordially invited to attend. Public hearings will also be held prior to the voting on the ordinance and dates of these hearings will be posted at the Town Hall and Post Office and in a newspaper of general circulation. The public is urged to attend and take part in the formation of the ordinance, so that it may be one which will work for all Newmarket residents.

Respectfully submitted,

Newmarket Planning Board

ANIMAL CONTROL REPORT FOR 1982

A great deal has been done in 1982 to help dog owners with problems. We have been called upon to assist in barking problems, leash and housing problems, what to do to get dogs licensed and what effect certain diseases have on dogs. This type of response is what we like to have from the public, as it shows that more and more the educational programs offered by the S.P.C.A., newspapers, magazines and our own Animal Control are working.

For the first time in six years our calls have decreased. This in itself is a huge gain in education in the care of pets. With the decrease in the number of calls, we still have had some problems, the biggest of which is the barking dog, dogs loose, running deer and cruelty cases.

In 1982, both I and the assistant Animal Control officer became certified part-time police officers by attending the Part Time Training School sponsored by the New Hampshire Police Standards and Training Council. The deadline for this training was December 31, 1982. Animal Control is being recognized by the general public as a necessity to help reduce the over-population of pets. Over population means that a certain number of animals must be destroyed every year by humane means at the shelters throughout the state. Education in neutering and spaying will help prevent this over-population of pets. If you have a question about neutering and spaying, please call us and we can help make a referral of your problem. Vaccination against rabies and distemper is also a very important part of good pet care. It is a law that you have your dog vaccinated against rabies before you can license. Parvo virus is the newest disease your pet can get, as well as heartworm. To insure good pet care you should have your pets checked at least once a year by a veterinarian. Animals have feelings, too, and if they do not feel well, it is not different than if we as human beings were suffering.

CONSERVATION COMMISSION

Many of this year's activities of the Conservation Commission centered on our town's unique water resources, the Lamprey River with access to Great Bay. We held a successful canoe race during Old Home weekend to increase public awareness of our waterfront. Proceeds from the race have been used to establish a Land Trust Fund for the eventual purchase of conservation lands important to our town.

We have cooperated with the Office of State Planning in the proposed establishment of a Great Bay Estuarine Sanctuary Program. The intent of this program is to insure continued availability of Great Bay's valuable resources.

We have been contacted by the Strafford Regional Planning Commission to aid in the inventory of environmental, cultural and recreational features of the Lamprey River. Their goal is to form a River Area Management Plan that will help the community to best use our river resources.

Other activities have involved our working with the Planning Board and Recreation Commission. Guidelines are being developed for acceptance and management of town lands and for multiple-use of town land on the upper Lamprey River.

We have openings on the Commission and welcome the active participation of our town's citizens.

Respectfully submitted,

Greg Thayer, Chairman

REPORT OF THE OYSTER RIVER HOME HEALTH ASSOCIATION

The Oyster River Home Health Association is a Medicare certified non-profit agency incorporated in 1967 to provide health services to the four towns of Durham, Lee, Madbury and Newmarket. It is governed by a Board of Directors composed of five members from each town.

The Agency's goal is to promote health in the community by providing professional nursing and therapy service on an intermittent basis either in the patient's home or at Agency sponsored clinics.

Care of the Sick Program

Agency professionals visit the sick in their homes to carry out specific orders of the patient's physician. Many visits are to patients newly discharged from a hospital or those suffering from chronic diseases. Typical services could include dressing changes, diabetic teaching, diet instruction, exercise program and teaching patients and families how to best deal with specific medical problems. Under nursing supervision, certified home health aides provide personal care services. Referrals are made when appropriate to other community social service agencies.

Medicare, Medicaid and private insurance all pay the cost of some health services provided certain criteria are met.

Maternal Child Health Program

This is a comprehensive preventive program for children birth to first grade age. The towns served provide two-thirds of the funding and one-third comes from a grant received from the State of New Hampshire Department of Health and Welfare. Recent funding cuts from the state made it necessary to place some income restrictions upon clinic eligibility.

Well Child Clinics provide physical examinations, hearing, vision and developmental screenings, and immunizations. Staffing is by a pediatrician, agency nurses and a corps of dedicated volunteers.

Semi-annual Dental Clinics provide prophylaxis for children three to six years of age who are enrolled in Well Child Clinic. Examinations are made by State Dental Bureau hygienists with referrals to local dentists. Agency nurses and volunteers coordinate this program.

New Born Visits - home visits to newborns and their mothers to provide guidance in child care.

Other Services Provided

Community Blood Pressure Screenings
Assistance in staffing State Sponsored Clinics
Health Supervision and Teaching in Local Day Cares
Child Abuse follow-up
Office Visits for B.P. checks and simple treatments
First Aid for Durham Town Employees

Agency staff maintains professional competence by attendance at continuing education programs of diverse sponsorship.

In addition to insurance payments, patient fees and the State M.C.H. Grant, funding to meet agency costs is provided by appropriations from member towns, United Way of Strafford County, contributions from individuals and memorial gifts.

Agency offices in the Durham Town Office Building at 13 Newmarket Road are open Monday through Friday 8:00 A.M. to 4:00 P.M. For further information call 868-5055.

REPORT OF THE NEWMARKET REGIONAL HEALTH CENTER

The Newmarket Regional Health Center completed its eleventh year of service in 1982. The health center operates two medical offices, one in Newmarket and the other in Raymond, the Lamprey River Clinic. Both facilities provide general medical care, preventive health services, community outreach, social services, and short term counseling with referral to area mental health agencies.

In 1982, Maude Guerin, M.D., an obstetrician/gynecologist, joined the staff. Dr. Guerin now provides prenatal, delivery and post partum care. In addition, the health center offers nutritional counseling and prenatal classes.

Other members of the medical staff include Sarah Oxnard, M.D., Peter Friedensohn, M.D., Michael Lewis, R.P.A., Barbara Janeway, M.S.N., A.R.N.P., and Anne Fawcett, A.R.N.P. The medical team also includes registered nurses, medical assistants and community health workers. For more information, or to make a medical appointment, call 659-3106 in Newmarket, 895-3351 in Raymond, or toll-free in Newmarket at 1-800-582-7279.

The community health workers coordinate a school health program and preventive screening clinics to detect potential health hazards. They hold informative workshops and act as liaison between the medical providers and the patient.

In November, 1982, the Newmarket Regional Health Center initiated a self-care program for the elderly in conjunction with the Occupational Therapy Department of the University of New Hampshire. The purpose of this program is to enable the elderly to stay in their home setting as well as to maintain a quality of life and independent status within their community. The focus of the program is to provide self-care skills before disability occurs and to anticipate problems with functional activities. Contact Anne Fawcett, A.R.N.P., at 1-800-582-7279 for further information.

The Newmarket Regional Health Center continues to operate the Senior Citizen Transportation Program. Three of the four buses are equipped with hydraulic lifts to provide services to the handicapped. The transportation service enables senior citizens to remain independent, self-sufficient and active by providing the needed services, including medical, food shopping and recreational trips. For more information, or to arrange a ride for a senior citizen, call 659-2424 or toll-free 1-800-582-7279.

The Newmarket Regional Health Center wishes to express its deepest appreciation for the support of the Town of Newmarket.

Respectfully submitted,

Ann H. Peters
Executive Director

REPORT OF THE NEWMARKET DAY CARE CENTER

The Newmarket Day Care Center, located on Simmons Lane off of Route 108 in Newmarket provided services to 82 area children in 1982.

Day care, nursery school and kindergarten programs are offered year round to area residents. This past year we also began a before and after school program for school aged children with the cooperation of the area school system.

The Child Care Center is open Mondays through Fridays from 6:30 a.m. to 5:30 p.m. to accommodate parent's various working schedules.

Licensed for 50 children between the ages of 2 years nine months through 10 years, the Center provides quality programs. Weekly tuition fees are based on parent income and family size.

Yearly speech screening, hearing and vision tests, dental workshops and safety films are offered to all children attending the Center.

For information about our Center and any of the programs, please call 659-2324.

We look forward to serving you in 1983.

Respectfully submitted,

Mary Burch
Executive Director

HEALTH OFFICER'S REPORT 1982

With the work done by the Community Development Office in rehabilitating many of the older buildings in the Main Street area, our complaints have not been as frequent as in the past. Growth still brings us major problems, but, with the cooperation of the public, many areas that could have been a major problem have been corrected.

The Health Officer approves all septic plans before they are sent to Water Supply and Pollution in Concord. This lets us know where these systems are going and in some cases prevents a problem before it happens. Although this is another step in the process of permits, there was not one application held up because of the lack of information. In some cases, the applications were expedited.

New restaurant and food establishments are also inspected and the building plans approved. The rules for these are outlined by the state and they must be followed.

Complaints for 1982

Rubbish	19	Litter on roadways ...	11
Dumps	3	Drainage	5
Sewage	2	Rats	37
Nuisance complaints ..	29	Warnings issued	17
TOTAL	123		

Once again complaints are down. Let's keep it going in that direction. Please help to keep Newmarket clean.

Respectfully submitted,

George Hauschel
Health Officer

REPORT OF THE WELFARE OFFICER

1982

Although the 1982 caseload remained about the same as in 1981, the focus has shifted due to the economic conditions. This year we had a higher percentage of requests for fuel oil during the cold weather period before fuel assistance became available. We also received more requests for assistance with utility bills to prevent shutoff.

Legal fees also consumed a larger portion of the budget in 1982, owing to costs from two juvenile placements. Most of this amount was for fees billed to the Town of Newmarket by attorneys for the juveniles, as the State of N.H. mandates that the towns pay these fees and attempt to recover the monies from the families of the juveniles involved. A smaller portion was due to a parent defaulting on court-ordered repayments to the Town of Newmarket and the legal procedures involved in seeking a contempt order and issuing an arrest warrant.

This past year, we received 35 applications for assistance in the category of Town Poor (General Assistance), including such items as rent, utilities and fuel. Of these, 23 were approved for assistance and 12 were denied as being ineligible. Totals for this category are as follows:

Total appropriation at
1982 Town Meeting for Town Poor - \$6,600.00

Food vouchers	\$ 483.31
Legal expenses (juvenile placement)	1,270.00
Gasoline to medical treatment (per doctor's order)	45.00
Rent to prevent eviction	620.00
Juvenile placement (board and care) ...	743.00
Public Service Co. (to prevent shutoffs) ..	632.26
New England Tel. (doctor's statement of necessity)	33.36
Fuel oil	257.97

Dues (N.H. Local Welfare Administrators' Assoc.)	15.00
Postage and office supplies	51.16
Welfare Officer's salary for one year . . .	<u>600.00</u>
Total expenditure for Town Poor category	\$4,751.06

In the category of Old Age Assistance, for which \$10,000 was appropriated in 1982, \$8,446.51 was spent. The number of nursing home residents varies in the course of the year, due to new admissions, deaths, and refusals. This year, 8 persons applied for admission to the Rockingham County Nursing Home in Brentwood. Of these, 4 expired before a vacancy occurred, and four were admitted. One person was discharged from the County Nursing Home. The daily rate at the county home was \$48.00 per day until October 15, at which time it was raised to \$51.32 per day. This averages out to between \$1,400-\$1,500 per month per person, of which the Town of Newmarket is billed for 25%.

In the ATPD (Aid to the Totally and Permanently Disabled) category, \$2,000.00 was appropriated in 1982 and \$3,677.92 was spent. The amount that a disabled person receives from the State of New Hampshire varies with the individual case, but 50% of the amount is billed to the town where the person has a settlement (one year or more of uninterrupted residence).

In the category of Soldiers' Aid, \$500.00 was appropriated and no money was spent.

On the revenue side of the ledger, your Welfare Officer has recovered a total of \$2,523.00 into the town's general fund in 1982. This includes payments from persons who have received assistance, reimbursements from other municipalities for people assisted in Newmarket who still have a legal settlement in another town or city, repayments for juvenile placements, and recovery of liens placed on real estate. This represents a recovery rate and budget offset of 15% of expenditures. We require all who receive assistance to sign a repayment agreement to

reimburse the town when and if they become financially able. If need be, the repayments may be spread over a period of time until the total amount is repaid.

New legislation is under consideration at the state level to revise the existing settlement laws. It remains to be seen whether these proposed revisions will benefit welfare administration at the local level. It is, however, extremely important that a local welfare administrator be well-versed in all the laws pertaining to this field. Legal knowledge or the lack thereof can mean greater savings or greater expenses to the town. Good working knowledge of the laws also protects the town from legal action in welfare decisions. While we have an obligation to assist persons who are genuinely in need, we have an equal obligation to the taxpayers to administrate all funds strictly and to make every effort to recover as much as possible for the town.

Respectfully submitted,

Jo Anne Hauschel
Welfare Officer

REPORT OF STRAFFORD REGIONAL PLANNING COMMISSION

Commission work in Newmarket this year began with research on New Hampshire RSA's and case law, regarding planning board responsibilities for public notice of zoning amendments. The results of that investigation saved the Planning Board more than the cost of its dues for the year. The Commission also researched the status of, and improvements to, Newmarket's floodplain protection zoning, and a rating system and performance bonding requirements for local roads. The Commission typed the final draft of Newmarket's revised subdivision regulations for printing, and alerted the Planning Board to a potential problem with a regulation. Commission staff met with the Planning Board a total of seven times during the year.

The Commission also worked with the Newmarket Community Development Office, helping market vacant downtown commercial properties. Commission staff met with property owners, collected data, developed a brochure and made numerous contacts with banks, realtors, developers, chain stores, supermarkets, etc. about locating in Newmarket. Staff met with the Selectmen to report on the progress of their work.

The Commission also worked on several regional projects which affect Newmarket, the largest of which concerns the Lamprey River. Commission staff canoed and/or walked the length of the river through Newmarket, collecting data on natural features, land use, ownership patterns and other aspects of the river corridor. The information was used to analyze the impact of dam redevelopment and hydropower production on recreational use of the river for the Wetlands Board. Staff met with the Conservation Commission to review the information collected. The study is continuing and will result in a river area recreation plan for the town. The Newmarket Conservation Commission is represented on the River Planning Committee.
